

Contents of Volume 36

<i>No. 1, April 1970:</i>		<i>No. 7, April 1971:</i>		<i>No. 9, August 1971:</i>	
Driver Judgments as Influenced by Vehicular Lighting at Intersections, by Nicholas G. Tsongos and Richard Schwab	1	Simulating the Driver's View of New Highway Design Before Construction, by Larry J. Feeser, John D. Meyer, and John D. Cutrell	141	Ohio Photogrammetric Research Solves Highway Foundation and Right-of-Way Problems, by Wayland F. Norell	177
State Highway Department Management, Part 2—Training and Manpower Development, by David H. Summerville	9	Effect of Vehicular Roll on Polarized Headlighting, by Walter S. Adams	148	Pretesting Concrete Quality by Gamma-Ray Backscattering	180
Travel by Motor Vehicles in 1968 and Related Data, by W. Johnson Page	16	<i>No. 8, June 1971:</i>		<i>No. 10, October 1971:</i>	
Fatal Collisions with Fixed Objects on Completed Sections of the Interstate Highway System, 1968, by Harold R. Hosea and J. N. McDonald	24	Vibration Studies Relating to the Failure of the Point Pleasant Bridge, by Robert F. Varney and John G. Viner	161	Experience to Date with Impact Attenuators, by John G. Viner	209
<i>No. 2, June 1970:</i>		The Correlation Coefficient in Analysis of Engineering Data—Its Significance and Limitations, by Howard T. Arni	167	Fatal Accidents on Completed Sections of the Interstate Highway System, 1968–70, by Harold R. Hosea	219
Erosion Control, Safety, and Esthetics on the Roadside—Summary of Current Practices, by Wesley L. Hottenstein	29	<i>No. 9, August 1971:</i>		U. S. Interstate Highway Interchange Milepost Designators—An Investigation of Efficient Coding Methods, by Adrienne A. Whyte	222
How Drivers Locate Unfamiliar Addresses—an Experiment in Route Finding, by Donald A. Gordon and Harold C. Wood	44	Ohio Photogrammetric Research Solves Highway Foundation and Right-of-Way Problems, by Wayland F. Norell	177	<i>No. 11, December 1971:</i>	
Relationship of Fatality Rates and Fatal Accident Rates to Travel Densities on the Interstate System, by Benjamin V. Chatfield	48	Pretesting Concrete Quality by Gamma-Ray Backscattering	180	Highway Lighting Maintenance, by James A. Hogan	229
Differences in Fatal-Accident Patterns by Type of Vehicle on the Interstate System, by Harold R. Hosea	51	Loading History of a Highway Bridge—Comparison of Stress Range Histograms, by Charles F. Galambos and Conrad P. Heins, Jr.	184	Behavior of Curved Bridge Models, by Conrad P. Heins, Jr. and Bijan Bonakdarpour	240
<i>No. 3, August 1970:</i>		The effect of Vehicle Positioning on Lag Acceptance, by Frank Gatling and Adrienne Whyte	190	Determination of Motion and Deflection of Retaining Walls, by S. A. Veress	252
Effect of Absorptive Form Liner on Surface Durability of Concrete, by Frederick W. Cron	53	Service Lives of Highway Pavements—A Reappraisal, by Ivano E. Corvi and Jewel U. Houghton	192	<i>No. 12, February 1972:</i>	
State Highway Department Management, Part 3.—Personnel Management, by Alice Randill	60	<i>No. 10, October 1971:</i>		Improvement of Visibility for Night Driving, by Richard N. Schwab and Roger H. Hemion	257
<i>No. 4, October 1970:</i>		Experience to Date with Impact Attenuators, by John G. Viner	209	Travel by Motor Vehicles in 1970, by W. Johnson Page	268
Photologging—An Aid to Highway Engineering, by William T. Baker and James C. Williams	69	Fatal Accidents on Completed Sections of the Interstate Highway System, 1968–70, by Harold R. Hosea	219	Highway Bridge Field Tests in the United States, 1948–70 by Conrad P. Heins, Jr., and Charles F. Galambos	271
Soil-Portland Cement Thickness Design—Summary of Current Practices, by Donald G. Fohs and Earl B. Kinter	75	U. S. Interstate Highway Interchange Milepost Designators—An Investigation of Efficient Coding Methods, by Adrienne A. Whyte	222		
Photogrammetry for Highway Planning, Location and Design—Review of Current Methods, by Jesse R. Chaves	83	<i>No. 11, December 1971:</i>			
The Third Base for the Federal Highway Administration's Contract Price Index, by Edwin L. Stern	88	Highway Lighting Maintenance, by James A. Hogan	229		
<i>No. 5, December 1970:</i>		Behavior of Curved Bridge Models, by Conrad P. Heins, Jr. and Bijan Bonakdarpour	240		
A System for Estimating Present Surface Condition and Remaining Service Life of Existing Pavement Sections, by Ivano E. Corvi and Bill G. Bullard	93	Determination of Motion and Deflection of Retaining Walls, by S. A. Veress	252		
<i>No. 6, February 1971:</i>		<i>No. 12, February 1972:</i>			
Designing Fail-Safe Structures for Highway Safety, by F. J. Tamanini	121	Improvement of Visibility for Night Driving, by Richard N. Schwab and Roger H. Hemion	257		
Fatal Accidents on Completed Sections of the Interstate Highway System, 1968–69, by Harold R. Hosea	133	Travel by Motor Vehicles in 1970, by W. Johnson Page	268		
Travel by Motor Vehicles in 1969, by W. Johnson Page	136	Highway Bridge Field Tests in the United States, 1948–70 by Conrad P. Heins, Jr., and Charles F. Galambos	271		

List of Authors

(and volume page reference)

	Page		Page		Page		Page
Adams, Walter S.	148	Feeser, Larry J.	141	Hottenstein, Wesley L.	29	Stern, Edwin L.	88
Arni, Howard T.	167	Fohs, Donald G.	75	Houghton, Jewel U.	192	Summerville, David H.	9
Baker, William T.	69	Galambos, Charles F.	184, 271	Kinter, Earl B.	75	Tamanini, F. J.	121
Bullard, Bill G.	93	Gatling, Frank	190	McDonald, J. N.	24	Tsongos, Nicholas G.	1
Chatfield, Benjamin V.	48	Gordon, Donald A.	44	Meyer, John D.	141	Varney, Robert F.	161
Chaves, Jesse R.	83	Heins, C. P., Jr.	184, 240, 271	Norrell, Wayland F.	177	Veress, S. A.	252
Corvi, Ivano E.	93, 192	Hemion, Roger H.	257	Page, W. Johnson	16, 136, 268	Viner, John G.	161, 209
Cron, Frederick W.	53	Hogan, James A.	229	Randill, Alice	60	Whyte, Adrienne	190, 222
Cutrell, John D.	141	Hosea, H. R.	24, 51, 133, 219	Schwab, Richard	1, 257	Williams, James C.	69
						Wood, Harold C.	44
